IN THE INSURANCE BUSINESS, personal relationships are everything. When sales representatives are in the office processing paperwork, business suffers. The **Kodak** Scan Station is helping one of our insurance customers keep their sales reps on the road and productive five days a week. They can now check the status of applications and securely add documents to the workflow through a special protocol. And, with the scanners providing so much functionality, the agency has been able to remove the distraction of PCs, which were being used for unproductive tasks. The **Kodak** Scan Station: turning inefficiency into opportunity.

IN BANKING, branch offices are tasked with ensuring customer satisfaction through fast, accurate transactions. The **Kodak** Scan Station helped one bank enhance customer relations by allowing tellers to quickly capture documents and access core application functions on the touchscreen – all while continuing their interaction with the customer. The Scan Station also helped the bank meet firm requirements for user interface and document transfer security. And the Scan Station's integration capabilities allowed the bank to create and distribute a simple application for use with the system. The bank now enjoys greatly simplified, highly secure processes courtesy of the **Kodak** Scan Station.
