

XT-3300

Document and Book Scanner

Less than 3 Seconds Scanning Speed with A4 Size in Color
LED Light Source and Function Buttons Ensure Instant Scanning

OCR engine powered by **ABBYY**[®]

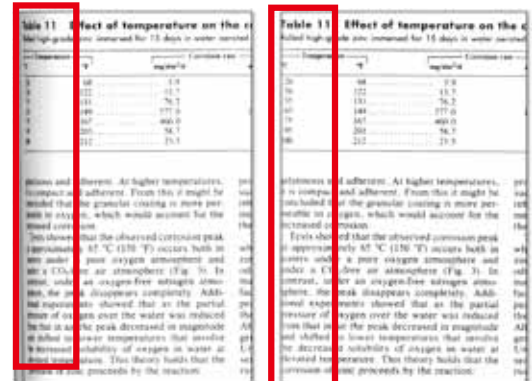

Three programmable function buttons on the scanner panel provide you an intuitive and easy way to access scanner functions.

New Solution for Scanning Thick Documents

The XT-3300 patented Zero Boundary™ design eliminates the problem of scanning bound pages with text and pictures close to the inner margin of a book or magazine. You get easy-to-read text and clear images across the entire page.

No more distortions, no more blurs

Conventional scanner

XT-3300 with Zero Boundary design

Bundled with Newly Advanced ScanWizard DI

Auto Document Rotation function enables the scanner to rotate every saved files in a readable direction automatically based on a specific OCR language selected.

Remove Punch Hole function automatically detects the location of the punch holes on the scanned documents and fills them in white.

Auto-crop function automatically detects the size of the original image, crops the full scan frame to fit the image, and removes unwanted black borders.

Remove Blank Page function automatically detects blank pages and removes when scanning a stack of documents. It is quite helpful especially when users are scanning double-sided documents and some of the pages only have text on the front side.

Color dropout function drops out red, green and blue colors from problematic color document to pursue clearer and more accurate form.

Auto-deskew function automatically corrects distorted images for proper alignment.
